

Drain Surgeons

Your First Aid for Blocked Drains

Drain Cleaning, Hydro Blasting & Vacuum Loading Services

Drain Surgeons have the equipment to clean all pipeline sizes from 40mm domestic waste pipes, to large pipe sizes, - up to 3m in diameter.

Our wide range of vehicles & equipment are capable of undertaking all specific job requirements.

Drain Surgeons specialise in large bore root cutting with pipe sizes up to 900mm in diameter.

We specialise in heavy silt cleaning projects and in conjunction with our vacuum loading units, we are capable of removing all silt and debris in pipelines up to 3m in diameter.

For more information regarding this service, please contact Drain Surgeons on 0800 37 2000 or visit our website at www.drainsurgeons.co.nz
